Jim,
We are planning on starting sampling in May 2019. We will provide the results to the community 60 days after completion of the sampling. I clarified this at the community meeting and in direct discussions with Olinka Green.

So what's the story on when you all are starting sampling. And then providing results?

Sometimes no news is good news.

John Meyer headed an EPA team at a Dallas City councilman's meeting last night. He, TCEQ reps, City of Dallas staff and the site team were able to respond to all of the community concerns.

Project plans for the Remedial Investigation and Community Involvement Grants or Contract support are back on track.

Good collaboration between EPA, TCEQ, City of Dallas.

Carl

The meeting went well. We had good attendance and answered a LOT of questions. No obvious press in attendance. Will follow up with more. I am hoarse from talking and ready to unwind.
